•  
•  
•

### Secondary School

**School** -> Santosh International School  
**Board** -> C.B.S.E  
**Percentage** -> 95%

## PROJECTS

### Ecommerce - website

The project aims to develop a comprehensive e-commerce platform using Node.js, MongoDB, HTML, CSS, and Express.js. The platform will facilitate both rental and purchase services for users and house managers. It will incorporate robust backend functionalities, intuitive user interfaces, and secure database management to ensure smooth transactions and user satisfaction.

### Weather Api

This project employs React and Tailwind CSS to build a user-friendly weather API integration platform. Users can access real-time weather data, set custom alerts, and visualize trends with interactive elements.

**Simon Says game** - created by javascript
